

STUDY TRIP | AUGUST 2026

SAO PAULO BRAZIL

www.dcobys.com

THE SMARTER E SOUTH AMERICA

It is the largest platform in Latin America dedicated to the energy industry and energy transition. The event brings together leading companies, technical experts, project developers, and decision-makers to present solutions in renewable energy, storage, electric mobility, smart grids, and energy efficiency. The academic mission allows participants to learn firsthand about the trends, technologies, and business models that are driving the region's energy future.
